PILOT

The Pilot 1958

VOL. XXXVIII

Annual Edition

*Published by the Students
of Mechanic Falls High School*

Editorial

Educational progress over the years has been great in all phases of schooling, from the primary schools through college. We, the editors of the "Pilot," feel that this advancement is well shown by the improved standing of Mechanic Falls High School.

When you look at our building from the outside, it may seem rather small and yellow and, perhaps, drab; but when you come inside during the school day you would find it quite different. It may be small, but what is learned here is great; the color may be yellow and drab, but the students don't feel that way; it isn't a little, yellow, drab school in their opinion; it is **THEIR** school; it belongs to them, and they love it.

The student-teacher relationship is good; the teachers do not know a student by a number or a last name; they know the student by his first name and know **ABOUT** that student. Respect for the teachers is instilled in a student from the first day he enters our school; he is made to feel they are his friends, but he is not to take advantage of this friendship.

Mechanic Falls High School has a high academic ratio in its classes, and students and teachers both are proud of that fact. They are proud of every student that goes on to a higher education, or on to a job, service, or a home, and makes good. They are proud when the graduates are given as much high praise as any other students are anywhere.

The teachers try to give every student a thorough knowledge of every subject and teach him to apply it to his daily life. The text-books are not thought to be dry tepid things, hard to digest; they are used to add to the student's knowledge of the world that surrounds him, and to show him how to put every subject into practice on his own level and prepare him for his future.

Mechanic Falls High School is proud of its past graduates and plans to be just as proud of its future ones. The school will improve even more as time goes on and as education advances; and through it all we shall be happy to say, "I went to school there, and I am proud of it."

Dedication

MR. ARTHUR GOUIN

We, the graduating class of 1959, are proud to respectfully dedicate this yearbook to Mr. Gouin. We are more than grateful to Mr. Gouin for the hard work and many hours he has willingly given to make us a better class. During our graduating year, as our home-room advisor, he pushed, prodded, and sometimes even got a little angry. All this, and even more he sacrificed for our class. Our sincere vote of thanks is always with you.

In past years the Pilot has gone into debt. This year we are striving to pull it out of debt. A profitable card party was sponsored.

The "Pilots" were sold in advance to prevent having too many left over. More fund-raising activities are planned to put it in the "black."

We feel that a great deal of credit is due to Christine Kyllonen, Nancy Mattor, Elizabeth Bonney, Brenda Morrell for the excellent work in typing material for the yearbook even though their names do not appear on the editorial staff.

Baseball '57-'58

Under the new coach, Fred Coffin, the Mechanic Falls High School baseball team went on to another successful season. The won and lost record was a mediocre 6 and 4. Although this doesn't seem very terrific, two of those losses went to the highly polished Leavitt Institute team which was the winner of the Sandy Valley Championship. And both of these losses were by a one run differential.

The highlights of the season included a well earned victory over the mighty Freeport Falcons, winner of their divisional championship. Also Burleigh Tibbett's spectacular one hit, six to nothing shutout over the strong Norway Rams avenged a twelve to two defeat by them earlier in the season.

Offensively we were strong as usual. The team's batting average was close to .285 which doesn't seem too good, but considering the fact that we had two or three hitters with batting averages of

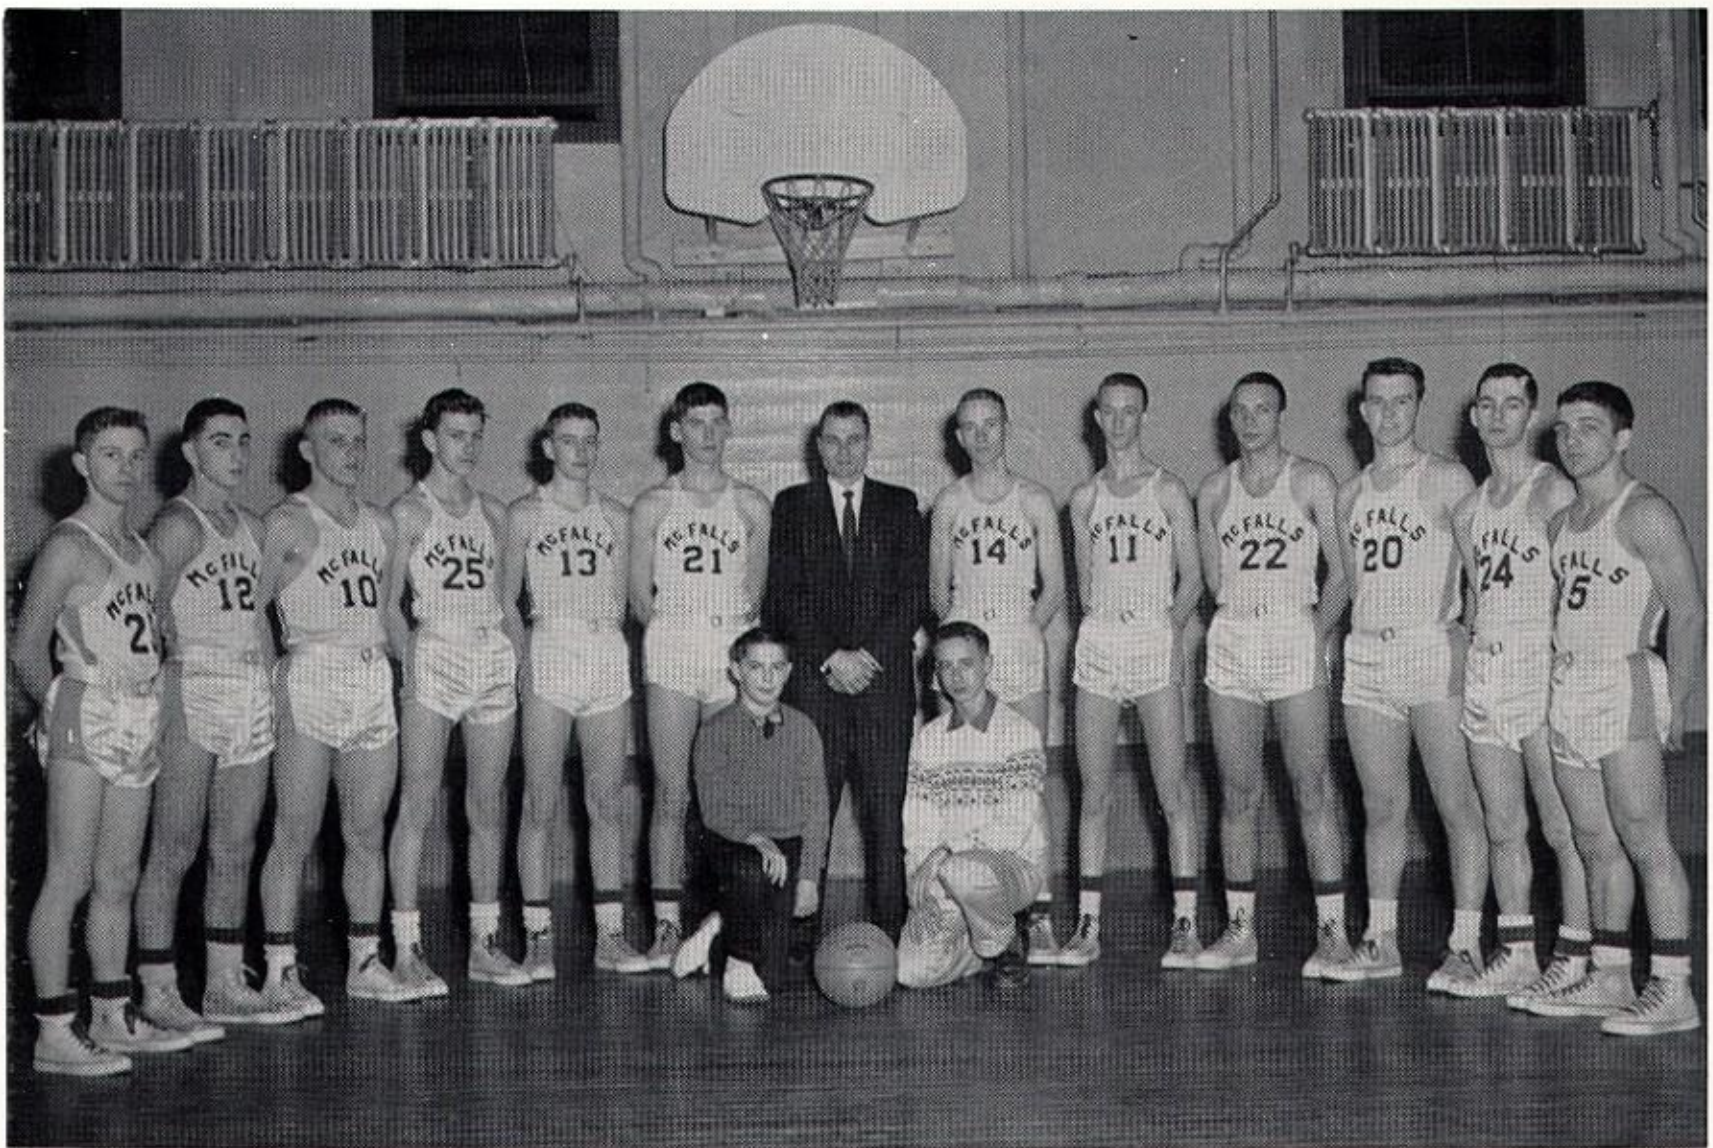

less than one hundred, it is very good. The highest batting averages were: 500 and 428.

Our team was a running team with Smalley Sargent leading in the stolen base department with 13.

Defensively we were fair but lost most of our games on just plain mistakes. We had no great pitching besides Burleigh Tibbett's one hitter and Howard Asyby's Relief performances.

Basketball

This year we didn't expect to have a very potent basketball team, but much to our surprise we had one of the finest teams ever at Mechanic Falls High. I might add, if it hadn't been for all the hard work and patience bestowed upon us by what I and the rest of our team consider the best coach ever to be at Mechanic Falls, we probably would have had just another mediocre ball team.

Our won and lost record for the overall season was 17 wins and 4 losses, in-

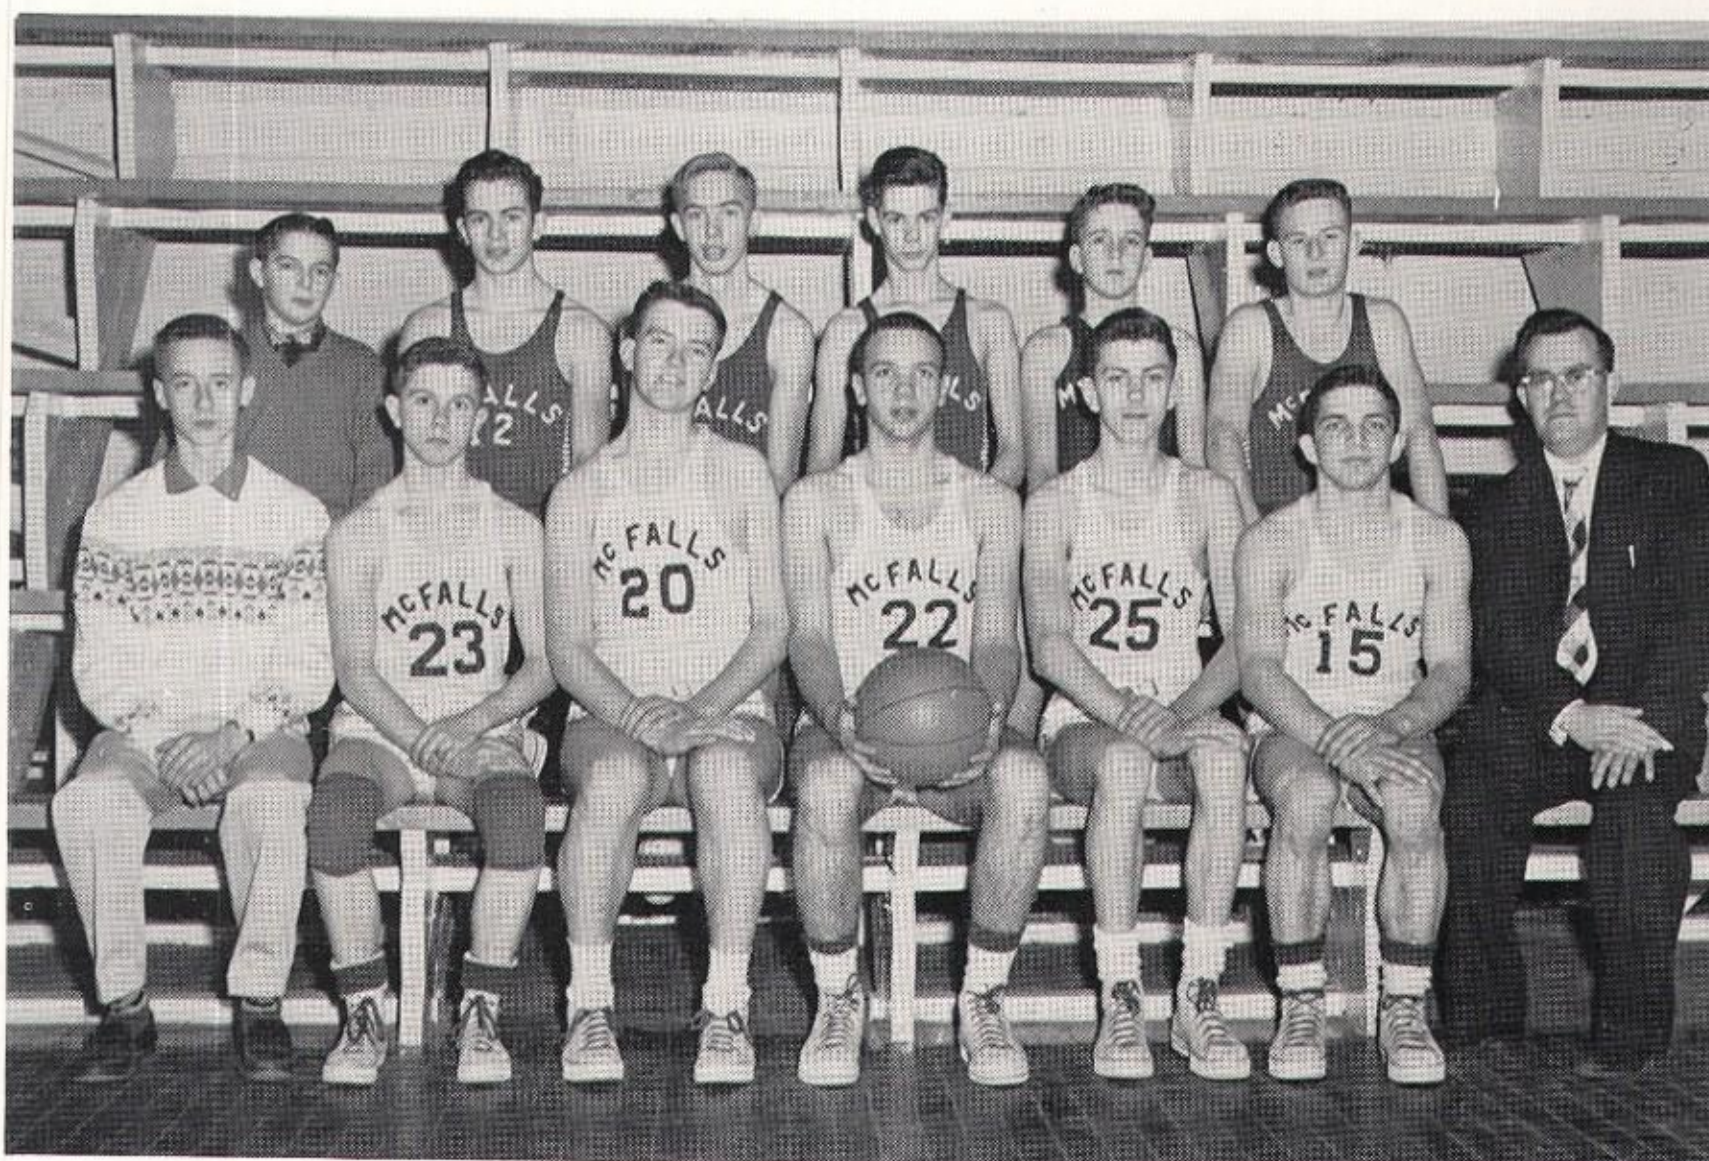

cluding the loss at Lewiston to North Yarmouth Academy. We had a point index of 17.647 and were seeded fifth at the Western Maine Class "M" Tournament.

The highlight of the season took place the night of December 30 when we won over Freeport, the defenders of the Western Maine Class "M" championship, by a score of 76 to 71. Our worst defeat of the season was to the highly rated North Yarmouth Academy in the quarterfinals at Lewiston, 72-50.

The girls did a very good job as commented from the outside. They had a lot of new cheers, many more formations, and quite a few rallies. We wish to thank Mrs. Leclerc for all the help and suggestions that she offered.

Even with limited members we were able to play thirteen fine games in competition. We hope to have more support from the school next year. We want to thank Mrs. Meldrum for her fine job of coaching and thank Dianne Rollins for a good job of managing. Gloria Harriman, Assistant Manager, also did a fine job.

Softball

Twelve girls went out for softball the spring of 1958. Mrs. Leclerc was our coach and Beth McAllister was our manager. Owing to bad weather and lack of transportation we didn't play many games in competition.

Plans for 1959 are now being made. Mrs. Meldrum will be the new coach. Most of last year's team will be back with several new prospects from the Freshman Class. We plan to play more games in 1959.

CO-CAPTAINS

THIS I BELIEVE

To me, life means happiness. I think everyone has times when life is wonderful. But, the secret is to love life even though bad luck has hit you and the chips are down. Life is a miracle; life is an opportunity; life is a trial. I think anyone could live to be a thousand years old and still never see all the miracles of life. If I had my way, I'd see every street, every hill, and meet every person in this world. I believe that we were put on this earth to enjoy the world about us. So often people are so busy trying to be a success, they forget that just being alive is a success.

Be a star, not a satellite. Don't revolve around others, doing what they do, saying what they say. Be an individual. Let the people revolve around you. Join them sometimes, but do not put yourself in their orbit. Your life is your own. If God had wanted carbon copies, He would have made us all identical.

I want to live a normal life and die without regrets. One does not have to do something outstanding to be outstanding in the eyes of heaven. He must merely give what he can for the betterment of the earth. A successful life consists of making yourself happy without making others unhappy . . . this I believe.

THE NEGATIVE ATTITUDE

Many students in M. F. H. S. have a very negative attitude about the activities and clubs in the school. Perhaps they obtain this way of thinking from their parents. It seems to me that no matter who is in charge, no matter what plans are made, there are about five or six people doing all the work. This is seldom seen in larger schools. One would think that these individuals who leave the work for someone else

A SONNET

It's hard to write a sonnet,
I can say!
But I can list so many
things I like:
A rosy sunset at the close
of day;
My gun, the faithful dog,
and a long hike;
A walk in spring to where
the ice is out;
The air is fresh, the sky
is very blue.
And there in wait I find
the lurking trout;
The fun is great, the
catch is all too few.
The squirrel gray I find
in the oak;
The pheasant hide in bushes
on the slope;
The deer blend in with all
the shades of brown.
The autumn days are best
of all, I find.
But all too soon I leave them
far behind.

By Fern Bosse

would be ashamed. But are they? No. In fact they often brag about this shirking of duty as if it were something of which they should be proud. The weak excuses that these people give are unbelievable. How can such students be so negative about everything and enjoy it? Will these same people still be negative after they have graduated and are on their own? I certainly hope that they leave this feeling far behind them. Evaluate yourself! Do you have a negative attitude?

Student Council

The following officers were elected last year:

President - - - - - Roger Sargent
 Vice President - - - - - David Strong
 Secretary - - - - - Judy Larrabee
 Treasurer - - - - - Joanne Lenahan

The Student Council has added new rules for the clubs to abide by. One rule is that clubs must meet ten times a year, and another is that the clubs have a written constitution.

The Student Council receives five per cent of the money earned by different classes from various activities. Other money making projects were a roller skating party, a dance honoring those who made the honor roll for the second term, and a sale of banners, hats, wolves, and beanies.

Last fall we attended the second Student Council Convention at Deering High School. Many helpful ideas were gathered.

Freshman Member: Sandra Baird.

Sophomore Members: Janice Goodwin and Brian French.

Junior Members: Judy Larrabee, David Strong, and Fern Bosse.

Senior Members: Joanne Lenahan, Roger Sargent, Howard Ashby, Lynda Henley, Dianne Rollins, and Arthur Cotton.

Considerable work has been done to better the point system, by which students earn their letters. Discussions have also been held with various ring representatives about having a school ring instead of each class having a ring.

SEATED, left to right: Richard Dolan, Dayle Edwards, Michael Baird, Roger Sargent, Rebecca Keene, William Gagne.

Magazine Campaign

The 1959 Magazine Campaign was a big success. We exceeded our quota by \$200. The school made \$370. The boys out-sold the girls, therefore a "Slave Day" went into effect with the girls catering to the boys.

The Juniors had the honor of receiving the class mascot, which was given to the

class that sold the most magazines.

Top salesmen were Rebecca Keene, Ronald Rollins, Robert Hodgkins, and Geraldine Brackett.

Mrs. Meldrum was honorary captain of the girls' team, and Mr. Hayden of the boys' team.

The Christmas Concert

The Christmas Concert was presented by the Glee Club on December 18, 1958.

The program consisted of the singing of Christmas carols by the group and a few special selections by various individ-

uals.

It was considered a success since this was the first activity of this kind held in a long while. However, a larger attendance would have been appreciated.

Through the Thanksgiving and Christmas holidays we gave a basket of food to a needy family. We also had a Christmas party for pre-school children.

We are proud to say that Judy Larrabee represents us in District E. She was

chosen secretary of our district at a convention at Stephens High School. About twenty girls from Mechanic Falls High School attended this convention.

For money raising activities, we have sold sandwiches and milk at lunch time. Many other activities are planned for this year.
